

Pegasus Knight

With chocobos ruling the ground below, pegasus knights instead seek to rule the skies above. Elegant riders in the air, pegasus knights patrol above others, their mounts serving to help them gain the advantage against groundborne foes.

The pegasus knight is an archetype of the chocobo knight class.

Pegasus Mount (Ex): At 1st level, a pegasus knight gains a pegasus mount. Unlike a normal pegasus, a pegasus mount is an animal rather than a magical beast, does not possess any spell-like abilities.
